PROFESSIONAL SUMMARY

Digital marketing professional with hands-on experience managing brand social media accounts, producing short-form video and photo content, and driving measurable audience growth. Directed content strategy for a London fashion brand that generated over 1.5 million views across viral TikTok posts and grew its Instagram following from zero to 20,000 in two months. Skilled across the full content pipeline: trend analysis, shoot planning and direction, model and location management, paid social campaigns, and cross-platform distribution. Trilingual (Italian/English/Spanish) with a Business Management degree from the University of Birmingham.

PROFESSIONAL EXPERIENCE

Social Media Manager | Luvvette

Sep 2023 – Feb 2025

- Owned end-to-end social media management for Luvvette, a London fashion brand, as a client account managed via SAVED Marketing — across TikTok and Instagram, from content planning through publishing.
- Analysed platform trends and performance data to shape a content strategy that produced four flagship TikTok videos totalling **1.5M+ combined views** (401K, 652K, 329K, and 116K) and **20.8K+ combined likes**.
- Built the brand's TikTok presence to **24.6K+ cumulative likes across 52 videos**, and contributed to growing its Instagram to **20K+ followers**.
- Distributed and scheduled content across platforms, adapting formats to each channel's algorithm and audience behaviour.

Founder & Director | SAVED Marketing

Sep 2023 – Feb 2025

- Founded and ran a digital marketing company delivering social-first content and brand campaigns for fashion and lifestyle clients, including Luvvette, Royal Mail, and The Economist.
- Grew a client's Instagram account from **0 to 20,000 followers in two months** through a consistent content and posting strategy.
- Directed and produced photoshoots across London studios and Canary Wharf: scouted locations, selected music, directed models on set, and managed styling to deliver on-brand visual content within tight shooting schedules.
- Managed model communications, call sheets, and on-set logistics — coordinating multiple moving parts under time pressure.
- Applied AI-assisted trend forecasting to keep content aligned with shifting audience attention and platform trends.

CEO & Creative Director | Final Judgment

Sep 2023 – Present

- Direct short-form video and editorial content strategy across Instagram and TikTok, using native platform tools (TikTok Creative Center) to build organic community engagement.
- Design, deploy, and optimise paid social campaigns via Meta Ads Manager, using A/B testing and audience segmentation to maximise ROAS.
